Pre-Req- Must have an A- in English (P) or a B-or higher in English (H/AP)

Course Description: AP PSYCHOLOGY

Psychology is the scientific study of the inner workings of humankind's most complex organ: the brain. Designed as a tour through the realm of psychology, we'll explore the underlying mental functions and behaviors that govern how we sense, feel, learn, remember, and process language. You will also learn how the mind develops as it ages, and the effects of nature versus nurture. Finally, you will learn about psychological disorders, therapy, and social psychology. By the end of this course, you will have a greater appreciation and understanding of how your own mind works.
