

### **Garces Memorial Chemistry Teacher**

We are looking for a full-time instructor who can teach college preparatory chemistry. Applicants must have a bachelor's degree (or higher) in chemistry or a related subject. Teachers will be required to create lessons, evaluate students, and provide the classes with appropriate laboratory work, as well as work in conjunction with the faculty of the science department and administration. Experience is greatly appreciated.

Our curriculum includes:

- Scientific method
- Science skills
- Properties of Matter
- Electrons
- Periodic Table
- Bonding
- Stoichiometry
- States of Matter
- Gases
- Solutions
- Kinetics Equilibrium
- Acids and Bases
